

Aerating Fountain - Fractional Series

Function

The Fractional series aerating fountain and mixer line is efficient and versatile as it is easy to handle, light weight and can be used as both a surface system or easily converted to an underwater mixer. The shallow operating depth makes this unit ideal for backyard ponds that contend with fluctuating water levels such as retention ponds and canals.

Features:

- Complete package consist of Aerator unit and cable with cable quick disconnect.
- Shallow operating depth (min. depth) 41cm of water.
- CE, ETI & ETL-C certified
- Optional LED light available - Fountain Glo LED Light.
- Introduce oxygen into water to control Algae, Weeds and Odors.
