

# Aerator Jet - AJI Series

## Function

This aerating jet produces a column of frothy white water, capped with a pulsating "crown". Aerators can be clustered to produce large columns of water. Ideal for interactive fountains and small to medium size pools. Spectacular when illuminated at night.

Water level independent.

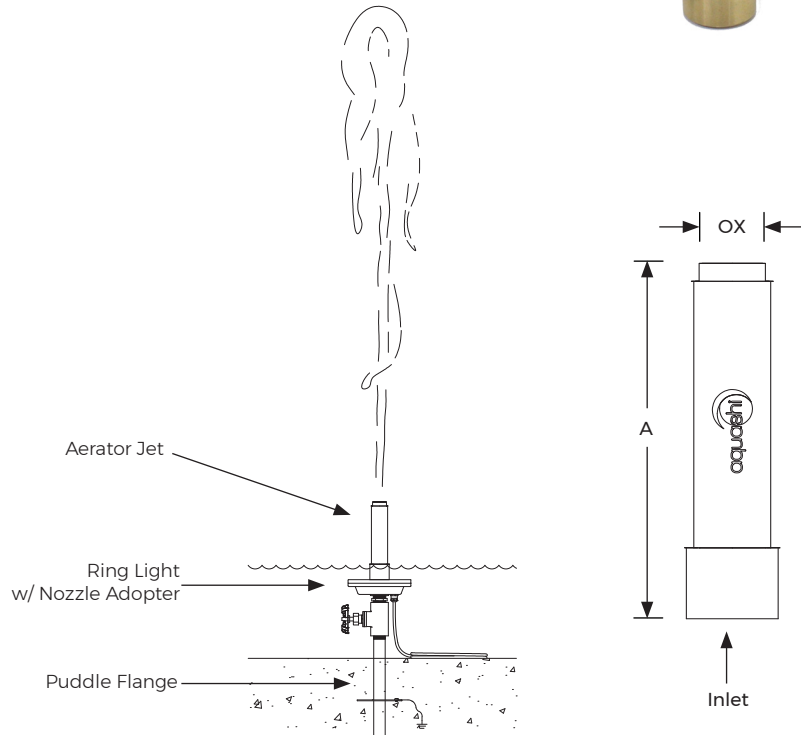

## Specifications

### Materials

Brass

### Connection type

Female thread

Model No.	Inlet (BSP)	Nozzle Height A (mm)	Orifice Ox (mm)	Spray Height (m)	0.5	1	1.5	2	2.5	3	3.5
