

# Bioethanol Burner - Monaco Round

## Function

Bioethanol fuelled Monaco Round fire feature is designed to be anywhere you wish to add a little extra warmth. Add the cosiness and romantic of an open fire to long summer nights in the gardens, on the terrace or in your conservatory lounge or bed room. Bioethanol fuel creates only a small amount of CO<sub>2</sub> and water vapour when burning, which means it has a clear combustion without smoke, smell and soot emission and with no need for chimney or ventilation.

Bioethanol Fuel is denatured, i.e. made unfit for human consumption. Our Bioethanol fire feature can be operated only with bioethanol of at least 96% but maximum of 97% purity.
