

Bioethanol Burner - Nice Built-in

Function

Nice Built-in bioethanol burner that can be integrated in furniture, tables or counter-tops and can be used both indoors and outdoors. Bioethanol fuel creates only a small amount of CO₂ and water vapour when burning, which means it has a clear combustion without smoke, smell and soot emission and with no need for chimney or ventilation.

Bioethanol Fuel is denatured, i.e. made unfit for human consumption. Our Bioethanol fire feature can be operated only with bioethanol of at least 96% but maximum of 97% purity.

Features:

- No chimney required
- No smoke, ash or soot
- Manual Burner
- Easy to relocate

Precautions:

Always use common sense when handling fire and flammable materials. Burner will get hot while operating. Never put fuel into open flames. Do not place any flammable materials within 1 meter of the burner, and atleast 2 meters away from windows and curtains. Only use in well-ventillated rooms. Do not store the fuel in the same area as the Burner. Do not use as a means to cook. Keep away from children.
