

# Fire Bowl

## Function

Fire bowls are made for residential and commercial applications. A Fire Bowl set will consist of a decorative bowl made from hand-crafted copper, metallic or concrete. Burners can be fuelled either with natural gas or propane gas (specify on request) and can have a Manual or Automated system operation.

The Automated fire burner assembly comes with flame monitoring technology to maximize safety. Burners are designed for outdoor use, durable and reliable in extreme weather conditions. All of the products are CSA/AGA approved.
