

Overflow Drain - ODF-S Series

Function

Overflow Drain use in fountains without space or wall thickness for wall mounted drains. Excess water overflows into the stand pipe drain during high water level conditions. The stand pipe also has a threaded connection which allows it to be removed easily for draining of pool and maintenance. Height can be customised upon request.

Specifications

Material

Stainless steel 316

Connection type

Female thread

Model No.	Outlet (BSP)	W1	A (mm)	B (mm)	C (mm)	D (mm)
